Art Unit: 1742

- 1. Claim limitations are to heterogenite powder of certain size. Any issues related to heating temperature were raised by examiner solely to show similarity between processes used in prior art and those used in invention, and do not serve to show distinction between claimed product and those of prior art.
- 2. With respect to Japanese reference and use of Abstract, the translated portion (Abstract) discloses a heterogenite material. In the event Applicant pursues appeal, further consideration will be given to having complete translation made of JP '970.
